

# Chesaning Area Historical Society & Museum

602 W Broad St - Chesaning MI

July 2018 Newsletter

## HAPPY BIRTHDAY AMERICA

No meeting is scheduled at the Museum for July.  
Enjoy the wonderful weather

We want to give Monte Lawton a warm "THANK YOU" for speaking to us at the June meeting.

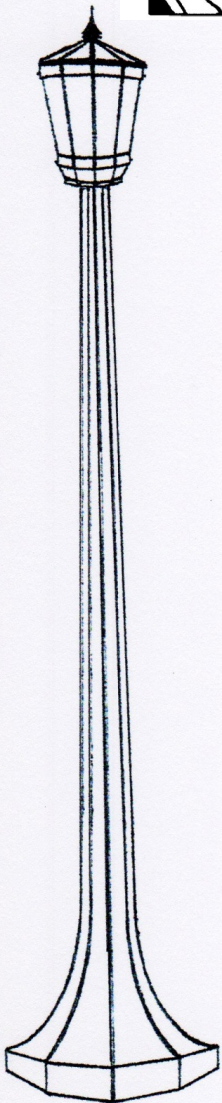

He took us through some of his most interesting archeological digs with great detail.

He also wanted to state that Chesaning is a historic town & would like to see us keep that in mind as we continue to record it's history & teach it to our children.

Noting our Native Indian history, he will be developing a Chip Stone Exhibit here at the museum. Showing stone tools

that have been made & used for 3 million years. Of all the artifacts associated with human occupations, the stone tools survived the longest & are the most common artifact type identified by archeologists. Before the wide-spread use of metallurgy, humans across the world made stone tools. They are a common thread that binds all of us together & teaches us much about our ancestors.

We look forward to working with Monte & learning along with the children just how things were done so long ago.

What's Happening in
